

Department of Public Works Notice of Intent for Routine Road Maintenance

The Department of Public Works is in the process of filing a Notice of Intent with the Conservation Commission for the routine maintenance activities of the Department. The project consists of the Town of Ludlow Department of Public Works performing routine maintenance projects for roads listed on the 2013 Town of Ludlow Street Map and associated storm water drainage and sewer systems. The projects are near or adjacent to wetland areas that are protected by the Wetlands Protection Act. The DPW's responsibility to maintain the roads and infrastructure in good conditions requires regular routine maintenance. Employees of the Department of Public Works or contractors working for the Town under the DPW's annual bid will perform the work. If you have any questions please call the Conservation Commission at 583-5600 ext 1285 or the Department of Public Works at 583-5625.
