

Piney Lane over Broad Brook Bridge Replacement Design Public Hearing

What is happening?

The purpose of this meeting is to provide the public with the opportunity to become fully acquainted with the proposed bridge (L-16-026) replacement project 609120 Piney Lane over Broad Brook. All views and comments made at the hearing will be reviewed and considered to the maximum extent possible.

How will this affect you?

As the only access to a dead end residential road, Piney Lane over Broad Brook Bridge has been rated in critical condition according to the last inspection report from MassDOT. A new, permanent bridge is therefore required to ensure the safe movement of traffic. MassDOT proposes to provide an adjacent temporary bridge during construction to maintain access.
